

Tropical Forest Safety Course (1/2 day)

This course is a suitable introduction to working or travelling safely in the tropics. It is used by The Royal Society's South East Asia Rainforest Research Program (SEARRP) as the standard course to prepare fieldworkers to operate safely in the rainforest.

Course Content:

- Heat illness
- Basic first aid
- Tropical illnesses
- Hygiene
- Water purification
- Rivers
- Flora hazards
- Fauna hazards
- Snake bites
- Navigation
- Lost procedure
- Emergencies
